II. REMARKS

The Examiner's time and thoughtful comments during the interview on April 16, 2007 are appreciated. Pursuant thereto, independent claims 1 and 9-11 have been amended therein to recite that the first toy component is directly connected to the link and that a tip of "the one of the swinging links" rotatably and swingably directly engages with the disk. Support can be found, e.g., on Page 8, lines 14-17, Page 10, lines 19-20 and Figs. 3-5, and on Page 6, lines 17-25, Page 10, lines 13-14 and Figs. 5, 8, respectively. Also, claims 10 and 11 are amended to change "perpendicular to the first and second swinging links" to – perpendicular to the first and second shafts" more consistent with Page 6, lines 13-14 and Figs. 3, 5 and 8.

In light of these amendments, it is respectfully that the claims are now in condition for allowance.

If there are any remaining formal matters, the undersigned would appreciate a telephone conference to attend to these matters.

Finally, if there are any additional fees associated with this response, please charge same to our Deposit Account No. 19-3935.

Respectfully submitted,
